Character Profile

I am a driven and detail-oriented Information Technology graduate with strong competencies in IT Support, Technical Operations, and System Analysis. I have hands-on experience working with website hosting, cPanel, DNS management, SSL configuration, troubleshooting client queries, and assisting with general system and website maintenance. My background also includes full-stack web development and contributing to AI-related projects, giving me a solid technical foundation and problem-solving ability.

My experience at Wao Host, a digital agency specializing in web design, development, hosting, mobile apps, and corporate branding, strengthened my technical, communication, and client-facing skills. I am passionate about providing effective IT support, ensuring smooth technical operations, and helping users resolve technical issues efficiently.

I am seeking an opportunity in IT Support or Technical Operations where I can leverage my technical skills, grow professionally, and contribute to seamless IT operations within a collaborative environment.
